

The background of the entire page is a photograph of a rustic wooden log cabin. The wall is made of horizontal wooden planks. In the center, there is a dark-stained wooden bench with a lattice backrest. A light-colored cushion and a grey blanket are on the bench. To the right of the bench is a dark-framed door with a glass panel, which is slightly ajar. A potted plant sits on a small concrete step in front of the door. The ground in the foreground is paved with light-colored rectangular stones.

## THE SYMBOL OF DANISH GARDEN FURNITURE DESIGN

The Drachmann line is the quintessence of classic Scandinavian garden furniture design. This timeless furniture classic with the familiar cross back has several decades and remains one of our most popular items of furniture. This proves there are true classics even when it comes to outdoor furniture.

## DRACHMANN GOES CASUAL

The classic and timeless Drachmann range is expanded this year with a Daybed. The Drachmann Daybed is launched in golden teak as well as glossy white. Despite its striking similarity to the classic bench, Daybed has its own unique characteristics, which create a wonderful atmosphere around it. Its reduced height and deeper seat give the Daybed a casual look that lends itself to those cosy, laid-back moments.

## CLASSIC AND COMFORTABLE

Selandia is the undisputed classic when it comes to functional folding furniture. The inspiration comes from the light, spacesaving furniture used on the old Atlantic steamers, which were easy to fold up and clear away when the sun went down. Selandia is a modern version of these items of maritime furniture. The well-thoughtout design gives the chair unique sitting comfort.

## MODERN DESIGN

The Ocean serie is were inspired by modern, streamlined sailing boats evoking visions of distant horizons and the open sea. The functional and innovative materials underpin the elegant modern design of the furniture and help give the line an international cut.

A close-up photograph of a chair's frame and seat. The frame is made of light-colored, possibly aluminum, tubular material. The seat is made of a dark, ribbed material, likely a synthetic cord or fabric, which is stretched over the frame. The background is blurred, showing more of the chair's structure and a hint of an outdoor setting.

## SCULPTURAL AND MODERN

Like a sail, stretched over mast and boom, taut cords loop elegantly around the lightweight frame of Ocean String, creating a sculptural and modern expression. The springy design conforms to the contours of the body for outstanding seating comfort as well as ventilation down the back and seat. The strong interplay between contrasting materials of the frame and seat alongside the chair's modern design make it hard to overlook as an ideal alternative to the traditional wooden garden chair.

## HAND-MADE WICKER FURNITURE DESIGN

Our wicker furniture is developed as an interaction of the proud traditions of wicker craftsmanship, a consistent, innovative style and the most modern wickerware technology. It creates a beautiful harmony between maritime-inspired design and hand-made wickerware. All the items of furniture are woven from our unique Fiber-Loom fibres, which have a ribbed surface structure and are capable of withstanding the changeable summer weather without requiring any maintenance.

## ELEGANT RELAXATION

The simple design of the new elegant teak range – Virkelyst – makes it ideal for outdoor living, beckoning you to spend some quality time close to your loved ones. The clean lines of the sofa, the gentle slope of the armrest and the loose cushions put spotlight on comfort, and the relaxed yet elegant style is equally at home in the garden or on the patio. The beautiful, simple table is low, adding the finishing touch to the relaxed atmosphere. The sofa is made up using with our attractive **Barriere®** cushions, made of a permanently resilient material that does not absorb moisture and does not develop an unpleasant odours.

## PUT YOUR FEET UP IN STYLE

The superb Regatta range makes for a relaxed lounge atmosphere on the patio. The range is made of solid teak slats. Quite apart from its elegant appearance, teak is unsurpassed as a material for outdoor furniture that needs to remain beautiful and practical year after year. Teak is rich in natural oils and core substances that hold the wood fibres together, prevent cracking and enable the wood to counteract rot. The Regatta Lounge Chair and Footstool are integrated, robust pieces of furniture, with slats that add a light and airy look and feel. The low table is practical when you want somewhere handy to put a book or a cool drink.

## SUMMER CAMPFIRE COSINESS WITH IGNIS

The Ignis Firebowl is a further development of Skagerak's popular Helios Brazier. What is new here is that Ignis is raised up from the ground on four legs, making the firebowl perfect for use on decking or other surfaces that cannot withstand high temperatures. The sculptural firebowl is made of Corten steel, a weather-resistant, rust-inhibiting material. Ignis is not only light and airy to look at; it is also light to move around. This makes it easy to create a fireside atmosphere anywhere in your garden – or on the beach, and the ash can be emptied out in an instant.

# CLASSIC CUSHION RANGE

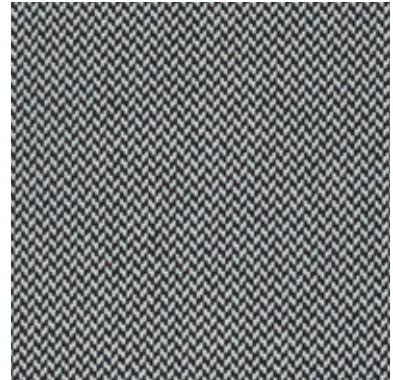

Besides being custom-made for our furniture, the firm **Barriere®** cushions are also specially developed for outdoor use. The interplay between the **Barriere®** weave and foam filling ensures that the cushions are weather-resistant, permanently resistant to mildew and do not develop unpleasant odours. So no matter how much rain falls, how hard the wind blows or how brightly the sun shines, **Barriere®** cushions are fade-resistant and retain their rich, deep colour sheen.

## STYLISH AND BEAUTIFUL

Skagerak has always been inextricably linked to Skagen, and the town remains an important source of design inspiration. The simple, beautiful lines and consistent choice of materials of the Skagen range clearly underline its connection to the town with the special light. The garden furniture are sturdy, unerringly stylish and, above all, strongly inspired by the furniture that could be found in the gardens of Skagen back in the days when Drachmann, Krøyer and Ancher turned the town into Denmark's artistic Mecca.

## CLEAN-CUT AND LIGHT

Like the famous explorer Christopher Columbus, the Columbus range is making headway. The clean-cut and light expression of the range, combined with its superb flexibility, provide every opportunity to sit back and embrace the ease and comfort that Columbus offers. The lightweight, adjustable chairs and clean-cut tables look beautiful in any cosy garden nook or patio. And the comfort of the range is completed by the sun lounger lends itself to laid-back moments.

## COMFORTABLE AND COSY

Grenen is a contemporary reinterpretation of the traditional garden furniture that could be found in the gardens of the Skaw artists in the late 19th century. Today's version emphasises comfort, whilst maintaining the classic and cosy ambience. The furniture have solid teak slats, mounted on a frame of galvanised, lacquered steel.
